

DEPARTMENT OF CHEMISTRY AND ENVIRONMENTAL SCIENCE
SEMINAR SERIES
SPRING 2020

DATE: WEDNESDAY, MARCH 4, 2020

LOCATION: TIERNAN HALL ~ Lecture hall 1

TIME: 1:00pm

GUEST SPEAKER

Dr. Kevin Bateman
Scientific Associate Vice President
Merck & Co

TOPIC

Shaping the Future of Bioanalysis: From Innovation to Implementation

ABSTRACT

Data is the currency used to drive decisions in drug discovery and development. How does this data get generated? From small molecules to proteins, from animals to humans; this talk will explore some of the challenges and opportunities faced by analytical chemists in the pharmaceutical industry and the new tools that are being developed and implemented in our labs.

Committee members:

Dr. Pier Champagne - pier.a.champagne@njit.edu
Dr. Hao Chen - hao.chen.2@njit.edu
